Hotel for rest and treatment

"The perfect choice in Rogaška-Slatina. Everything is super: accommodation, location, food. The staff is very caring. It feels just like home. I recommend paying attention to the special offers such as accommodation packages. It is very convenient and profitable."

Well rested

»As usual, I went for a treatment and stayed in an already well known hotel. I am satisfied. During my absence, everything just got better. Sauna area and floors were renovated. But, the staff is all the same - attentive and friendly. Thank you very much for a wonderful holiday and special thanks for the food - it is marvelous and diverse."

Very good!

"I stayed at the hotel for one night. Small, cozy, clean. Friendly staff. Overall it is a little outdated, but only morally. Delicious desserts. Tried the strudel, great! Not expensive. The hotel has a swimming pool. I recommend."

A place to rest from the bustle of the city

"Quiet, calm, the staff is very friendly. Rogaška is a very small town. The hotel is small. This year visitors were mainly from Italy. There's water Donat. Small mountains for walking. Ideal conditions to mend your health."

A good place called "Treatment and Relax

"We stayed in the "Slovenia" for 12 days. The hotel, in my opinion, is the best in the category "price-quality". Excellent staff who come to the rescue at any moment, very professional, polite and tolerant. We got a room with air conditioning. The food is excellent, there is a wonderful spa area, a small pool. I liked everything, especially the homely atmosphere. We will come again!"
